Subject: Bennoc Permit

Brian / Paul – At the conclusion of our call on January 23 you advised that we would be receiving a permit, by not later than January 27, for the Bennoc facility which would incorporate provisions we had discussed in this and previous calls. We look forward to receiving this proposed permit so that we may begin our formal review. I would appreciate if you could let us know the current status of this permit and when we may expect it. As you know, Sections V.C – V.E of the NPDES Memorandum of Agreement (MOA) between EPA and OEPA specify the steps that OEPA must take to initiate EPA's 90-day formal review period under Section 402(d)(2) of the Clean Water Act and 40 CFR 123.44(d) before OEPA can finalize any NPDES permit. Please let me know if you have any questions.
